Postmodern architecture - Wikipedia
Postmodern architecture is a style or movement which emerged in the 1960s as a reaction against the austerity, formality, and lack of variety of modern architecture, particularly in the international style advocated by Philip Johnson and Henry-Russell Hitchcock. The movement was introduced by the architect and urban planner Denise Scott Brown and architectural theorist Robert Venturi in their

Modern Architecture - SlideShare
Jan 31, 2012 · Organic Architecture Organic architecture is a philosophy of architecture which promotes harmony between human habitation and the natural world. The term “Organic architecture” was first created by the great American architect Frank Lloyd Wright (1867–1959), who is still the most famous designer to work in this style.

Architecture of Kerala - Wikipedia
Dravidian Architecture. The version of Dravidian architecture found in Kerala in the far south-west is significantly different. Very large temples are rare, and sloping roofs with projecting eaves dominate the outline, often arranged in a number of tiers. As in Bengal, this is an adaption to the heavy monsoon rainfall. There is usually a stone core below a timber superstructure.
